## EFFECTIVE • SAFE • EASY

GTech Clean ready-to-use antimicrobial spray is an EPA approved (Reg. No. 6836-152-92623), low cost solution to quickly, easily, and safely disinfect and deodorize all surfaces, rooms and vehicles. Long lasting formula leaves a microscopic barrier of protection that continues to kill viruses and bacteria for up to 5 days!\*

### Safe To Use

Non-toxic formula is skin friendly and hypoallergenic. Non-flammable. No ammonia. No bleach. No alcohol. No VOC's. GTech Clean will NOT cause allergic reactions or harmful skin irritations.

### Kills 99.9% of Bacteria & Viruses

EPA approved to kill SARS, Influenza, Human Coronavirus, Hepatitis, Herpes, HIV-1, Staph, MRSA, E.Coli, Mildew, Mold and many more - immediately and continuously for up to 5 days! Download the list of common pathogens killed [here](#).

### Easy Application & Many Uses

Spray or fog on and let dry. No dilution. No wiping needed. Dries fast. Leaves no residue. Using the fogger, a vehicle can be disinfected in under 60 seconds and a large room in just minutes! The spray bottle is used for clothing, equipment and field applications, including gloves, PPE, handcuffs, door handles, and all other safety equipment.

### Cost Efficient

GTech's highly concentrated formula saves money. Only a thin layer is necessary to be effective. Most vehicles can be disinfected at a cost of about 50¢ and just a few dollars for most rooms. Microscopic disinfecting barrier adheres to surfaces and lasts up to 5 days\*.

## GTECH CLEAN All Products

### ALCOHOL-FREE HAND SANITIZER

GTech Armour sanitizer spray is formulated for everyday use on hands and skin to kill germs without drying or cracking skin. It provides continuous protection for 2-3 hours after application. Spray it on BEFORE and after making contact with people and/or surfaces. It's also an excellent solution when you're on-the-go for disinfecting your mobile phone, face mask and other surfaces.
